SUMMARY

I'm a Full Stack Developer with a strong IT background. I specialize in Front-end development, using technologies like HTML, CSS, and JavaScript, along with frameworks like React . On the back end, I work with Node.js, Express, and Firebase. I'm experienced in agile methodologies, GIT, data structures, and algorithms. I also have expertise in CSS frameworks like Bootstrap and Figma.

SOFT SKILLS

- Strong problem-solving
- Analytical skills
- Interpersonal Skills

- Collaboration
- Leadership
- Critical thinking
- Attention to detail

PROJECTS

HENRY & CO

Full Stack Web Developer • 2023 - 2023
Academic Experience. Henry Bootcamp

- I built this E-commerce website and designed it to provide a seamless online shopping experience for users. It features a wide range of products, a user-friendly interface, and various functionalities that make it a comprehensive and efficient e-commerce platform.

- Key Features:

- 1. User Registration and Authentication: Users can create accounts, log in, and enjoy a personalized shopping experience.
- 2. Product Catalog: The platform offers a diverse catalog of products, neatly categorized for easy navigation.
- 3. Shopping Cart: Users can add products to their carts and proceed to checkout.
- 4. Payment Integration: Secure payment processing ensures smooth transactions.
- 5. Order History: Users can view their order history and track shipments.
- 6. Admin Dashboard: Administrators can manage products, users, and orders.
- 7. Search and Filters: Users can search for products and apply filters to find what they need quickly.

- Technology Stack:

- - Frontend: React, Redux, HTML, CSS
- - Backend: Node.js, Express.js
- - Database: Firebase
- - Authentication: Firebase
- - Payment Integration: Paypal
- -Agile: Scrum
